

# Specifications

MTL Model NO.	Safety Description			Polarities Available			Typical Applications	Basic Circuit		Max. end-To-end resistance $\Omega$	Vwkg at $1\mu A$ V	Vmax V	Fuse rating mA	Remarks
	V	$\Omega$	mA	+	-	ac		Hazardous	Safe					
7761ac	9	90	100			↙	Strain-gauge bridges		107	6.0	7.0	100		

## Dimensions in mm

## Common Specification

### Ambient temperature and humidity limits

Ambient temperature and humidity limits

-20°C~+60°C continuous working

-40°C~+80°C storage

5~95% RH

### Working voltage

0.6V : Leakage current is  $10\mu A$

### Terminations

Removable terminals accommodate conductors up to 2.5mm<sup>2</sup> (13AWG), Hazardous-area terminals are identified by blue labels. Removal force >15N

### Colour coding of barrier label

Grey: Non-polarised

Red : positive polarity

Black : negative polarity

### Weight

140g approx

### Certificate No. (BASEEFA)

BAS01ATEX7217
